iQCX[®] Platform

Automations and Workflow for your Travel Program

Modernizing Your Travel Program Starts Here

93% of TMCs reduced staff by 25+% to ride out the pandemic.

As business travel normalized, it's been difficult to **ramp up operations and support staff** fast enough.

Too many operations require manual attendance from an agent, and the industry simply **cannot handle** the ever increasing demand with current resources

And business travel clients demand **more personalized and responsive service** than ever...

**The iQCX[®] Platform and
ResRules Business Rules are
the basis of most of
Cornerstone's Products**

“What’s the best part of iQCX? It can do anything!”

How Do We Solve This?

The iQCX[®] web-based reservation management platform is designed to **help** travel management companies, corporate travel departments, and online travel agencies to **better manage** reservations, issue tickets, and deliver itineraries.

Global Distribution System Connectivity

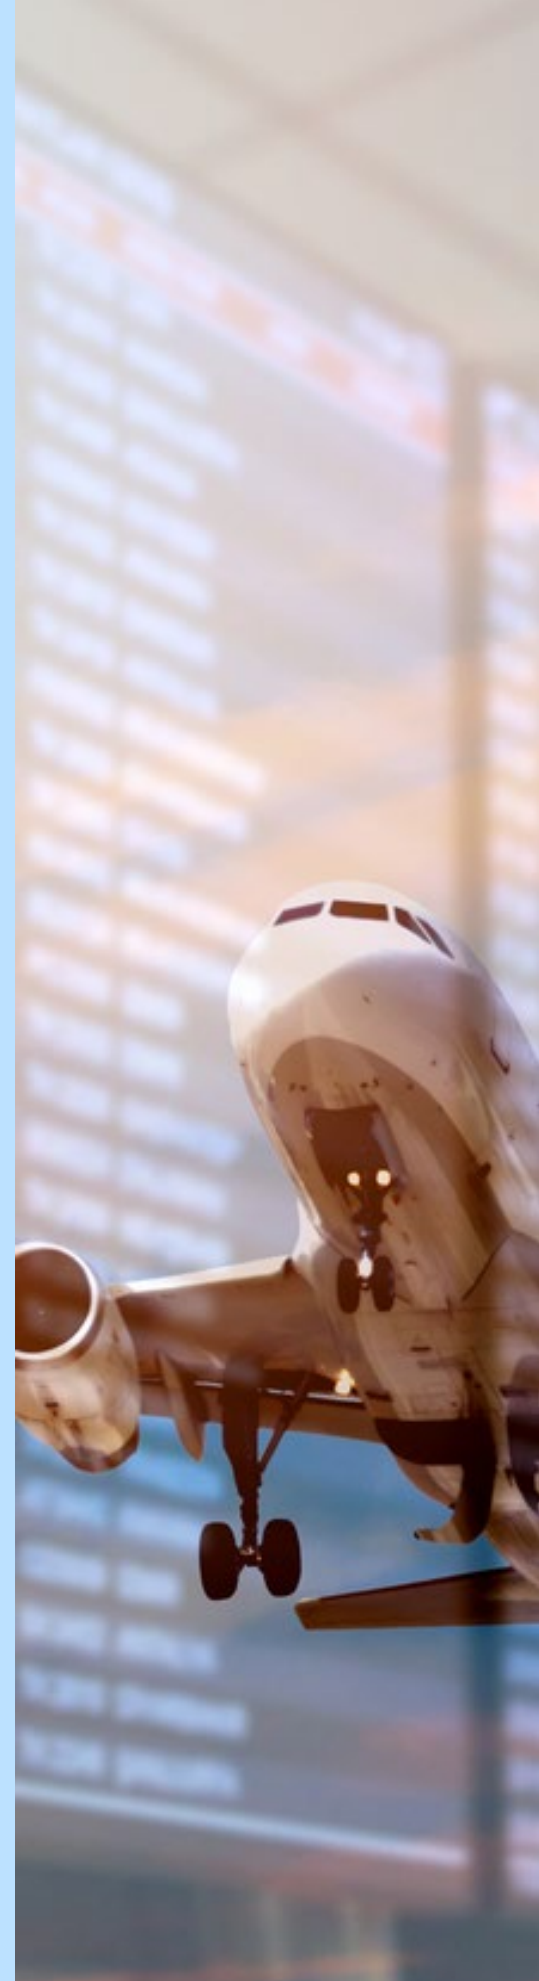

Interacts with every major GDS and can be customized to integrate with other technology providers.

Quality Control

Validate reservation accuracy, prepare reservations for ticketing, perform file finishing, and so much more

Ticketing & Itinerary Delivery

Issue tickets, then create & deliver branded email itineraries automatically

With iQCX[®] You Get:

Trip Improvement – The “Checkers”

The trip improvement component has two distinct and essential functions:

- **Fare Checker**
Searches the GDS for lower fare options
- **Seat Checker**
Works to acquire seats preferred by traveler

Ticketing

Automate **all** aspects of the ticketing process from basic ticketing to complex split tickets and exchanges.

- **Efficiently** ticket all online reservations
- Improve **customer satisfaction** by offering 24/7 automated reservations processing
- Itineraries **auto delivered** to your travelers.
- Let your agents focus on those high touch customer scenarios
